WSDA Pesticide/SPI License Fee Increases

Please note that license fees have increased. This increase, the first in 10 years, was necessary to address the rising costs of doing business. While WSDA was able to avoid fee increases for several years through the use of technology and implementation of efficiency measures, it could no longer do so and maintain its current level of service. We regret that it was necessary to increase your fees and pledge to continue to use them as efficiently as possible.

License	2008 Fee	2009 Fee*
Commercial Applicator	\$170	\$215
Commercial Applicator apparatus	\$ 20	\$ 27
